9-12 Workshop on *The Three Essays on the Theory of Sexuality* based on the new translation of original 1905 version

*9:00-10:30 Part I: Re-editing the 1905 Three Essays*

Philippe Van Haute (Radboud University), Ulrike Kistner (University of Pretoria)  
Herman Westerink (Radboud University)

*10:30-12:00 Part II: Re-reading the 1905 Three Essays*

Moderator: Emily Apter. Participants: Ben Kafka (NYU), Alexander Miller (NYU), Ann Pellegrini (NYU), Stella Sanford (Kingston)

This workshop is devoted to inviting panel presenters and audience members to engage in a dynamic re-reading/reconsideration of Freud's *Three Essays on the Theory of Sexuality* in light of the newly translated English edition of the 1905 original German text that is forthcoming from Verso books in 2017. The editorial team includes: Philippe Van Haute, Ulrike Kistner, and Herman Westerink. As the editors explain in their introduction, the first edition of this classic work from 1905 shows a radically different psychoanalysis from the one that we know today.

In the first part of the workshop, the editorial team of the volume will discuss how and why they decided to engage in this project and what they learned from the process. The second part of the workshop will be comprised of a panel discussion, moderated by Professor Emily Apter (NYU) and featuring speakers Stella Stanford (Kingston U); Ann Pellegrini (NYU), Alexander Miller (NYU) and Ben Kafka (psychoanalyst and NYU professor).

Three texts will be made available to participants in the workshop: 1) the editors' prefatory note, "Translating the First Edition of Freud's *Drei Abhandlungen zur Sexualtheorie*"; 2) the Introduction, "Hysteria, Sexuality, and the Deconstruction of Normativity: Re-reading Freud's 1905 edition of *Three Essays on the Theory of Sexuality*"; 3) the new translation of the 1905 text. People interested in attending the workshop are invited to register with SIPP/ISPP to get access to the texts under discussion.

### **10:30-12:30 Debate**

Jacques Lacan and Jean Laplanche differed over the formative role of language in unconscious mental representation. These differences, outlined in work over many years, will be revisited in a contemporary debate on their meaning, history, and clinical significance. *Does language establish the conditions for the unconscious or does the unconscious establish the conditions for language?* Current interest in these two psychoanalytic thinkers suggests that much remains to be uncovered in these questions.
